ABOUT JLL

Background

Founded by Jamie Loughlin who has 20 years of knowledge and experience in exterior cleaning and surface transformation.

Values

Knowledge. Years of experience makes JLL masters of their craft
Precision. Precision work for the best results.
Reliability. True to their word, they do what they say.

Scale of Work

JLL prides itself on the ability to carry out work on surfaces and areas of all shapes and sizes, from commercial and industrial to auto and antiques.

Location

Based in Whittle-Le-Woods, Lancashire, the JLL team has completed work to the highest standard across the UK.

Services

Owning all their own machinery, JLL is equipped to carry out a multitude of specialist services from 7 days a week.

STANDARDS AND ACCREDITATIONS

Working towards

JJL takes the standards set by the industry very seriously and prides itself on being IPAF accredited, CHAS Gold accredited, Stonehealth approved in Torc and Doff, and committed to CSCS.

WHY CHOOSE US

We're Fully Insured

Blasting is not without risk. That's why we're fully insured to protect you, us and your property...

Industry Accreditation

We uphold industry standards and are approved card holders in Stonehealth, CSCS, IPAF, and CHAS accredited.

Equipment and Machinery

We own and operate the best tools and machinery in the industry to ensure easy access and the best results.

Drone Survey Technology

If appropriate, we use drone technology to conduct an assessment of the site on a larger project.

Tailored Service

We can tailor the service to the surface requirement; i.e. determining the most appropriate blasting method.

Knowledge and Expertise

We're industry professionals with years of experience in the art of abrasive blasting.

TESTIMONIAL

“I have worked with JJL on every project that requires his expertise. The professional manner in how they approach these projects and see them through to completion is exemplary. Jamie’s in-depth knowledge and attention to detail always results in a perfect job that exceeds expectations.”

Jamie Phillips
Lancashire

INDUSTRIES

THE BENEFITS OF USING JJL'S BLASTING AND PAINTING SERVICES

JJB SERVICE TIMELINE FROM ENQUIRY TO COMPLETION

Enquiry

Submit enquiry via the website or by email or telephone.

The service and your address will be required at this stage.

Site Visit

In some cases, we may visit the site to take a closer look at the project and possibly conduct a drone survey.

Carry out Work

We commence the work. This may take half a day or a matter of weeks depending on the size of the project and the required works.

Invoice

We will invoice for the work. Payment is required within 30 days, as standard.

Discussion

We discuss your project, your objectives and the most appropriate blasting methods. This gives us an idea of the scale of the work.

Quote

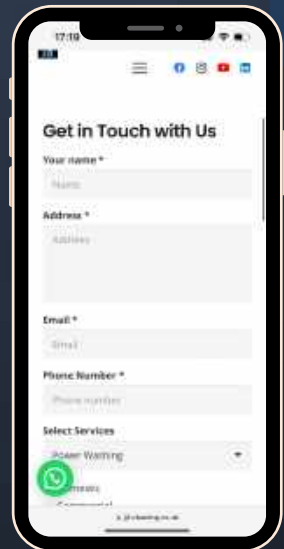

We will email you a detailed quote and agree a date to commence the work.

Completion

Work is completed and you will be able to see the results!

Review

We always ask customers to leave a review on google to help build the business and our reputation!

DRONE TECHNOLOGY INNOVATING OUR SERVICES

With the availability of advanced drone technology, we have the facility to conduct aerial inspections before, during and after our work if the project requires it. This ensures that we have a robust understanding of the surface type and condition from an aerial view without the need for manual access.

BENEFITS OF DRONE TECH

- ✓ Aerial Photography
- ✓ Videography
- ✓ Surveying
- ✓ Mapping
- ✓ Streamlines our Service
- ✓ Reduces Risk of Accidents
- ✓ Provides Better Visual Detail
- ✓ Enhances our Work Efficiency
